

DO ALL YOUR COOKING WITH
GAS OR COAL—ON ONE RANGE

Moore's Wizard

WILL DO IT WITHOUT CHANGING A PART

The Gas Equipment is of the most approved design and in no way interferes with the coal construction. Nor are there any parts to be changed around to use either fuel.

The Coal Equipment has Moore's fire back which is as necessary to a good working range as a safe is to a bank—it keeps money from going to the wrong place by saving waste products which make heat.

(By Evening Herald Leased Wire)
Southampton, N. Y., Aug. 28.—Washburn, No. 1, of Harvard, defeated Theodore Roosevelt Pell of New York in the finals today for the Meadow club tennis cup.

The meeting today of Pell and Washburn in the finals for the Meadow club tennis cup attracted much attention, chiefly on account of Pell's dashing play yesterday when he defeated Wm. M. Johnston of San Francisco.

It took Washburn four sets to dispose of Pell. The latter won the first set and made a desperate fight in the third, but his rally failed of success. The other sets were comparatively easy for Washburn.

Famous Notes to Germany Are Outlined by President
With Great Care and Precision.

It has often been said that President Wilson is, to a great extent, his own cabinet. Of course, the arduous duties of the Presidential office are quite sufficient to keep even so strenuous a worker as Theodore Roosevelt busy yet President Wilson not only performs the tasks incident to his own high office, but also assumes the direction of many important matters ordinarily performed by cabinet officers.
